TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages containing many quarts, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labelling "WM. UNDERWOOD'S EXTRA PICKLES," and are filling into full size jars, which are legibly stamped, in the glass, "with their exact contents in ounces—thus enabling the consumer to verify their truth."

These Extra Pickles are put up with every regard to quality and flavor, and will be sold at fifty cents, omitting prices.

We consider no change in our manner of offering Pickles, never having resorted to any deceptive means to attain this end. The Cider Vinegar with which we use it is made from sound fruit, and is fully free from Vitriol or any other mineral acid. It is not the case with that used in most brands of English Pickles found in this country.

dec23 PENNO & HALL.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.

Bangor, Feb. 20, 1856

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

THE NEW YORK WEEKLY TIMES,

A LITERARY AND NEWS JOURNAL, FOR THE FAMILY AND FIRESIDE.

The Cheapest Newspaper in the United States.

Upon the termination of the Presidential contest, now close at hand, the proprietors of the New York WEEKLY TIMES intend to introduce various and extensive changes in its character, which will render it still more attractive to the great mass of the people of the United States. Its columns will then be less exclusively occupied by political news and discussions, and will be much more largely devoted to LITERATURE, GENERAL News, and interesting MISCELLANEOUS READING. It will be made emphatically and especially a

NEWSPAPER FOR THE FAMILY AND THE FIRESIDE,

Containing Literary Tales, Original and Selected, Biographical Notices, Sketches of Character, Letters from Abroad, Anecdotes, and generally whatever will be most entertaining and most instructive to the great mass of Newspaper Readers.

Among the conspicuous attractions of the Weekly Times will be

AN ORIGINAL NOVEL,

By a Popular AMERICAN AUTHOR, written expressly for its columns, and abounding in interest and merit. This will be published in successive numbers, commencing about the 15th of November, and will probably be completed in six months.

The *Weekly Times* will also contain a series of

LETTERS FROM EUROPE AND THE EAST,

By one of the ablest and most Popular writers in the United States, embracing Notes of Incident, Adventure and Observation in Europe, Egypt, Arabia and the Holy Land, and forming one of the most interesting series of Foreign Sketches ever published in this country.

Besides these continuous articles, prepared expressly for the New Series of the *Weekly Times*, it will contain, every week, a great amount of

Original Correspondence, Domestic and Foreign.
Miscellaneous Literary Anecdotes and Sketches.
Notes of Scientific Discovery.
Biographical and Critical Notices.
Remnies of New and Valuable Books.
Choice Poetry, Original and Selected, &c. &c.

In short, it is the design of its proprietors to spare neither expense nor labor in making it the most interesting and desirable Miscellaneous FAMILY NEWSPAPER in the United States.

In addition to its Literary and Miscellaneous character the *Weekly Times* will give, in a clear and condensed form,

All the News of the Day,

from all quarters of the world, and in all departments of activity,—embracing

HORTICULTURE, COMMERCIAL AND FINANCIAL INTELLIGENCE,

Prepared expressly for its columns, and for the use of these in all parts of the country who wish to be kept informed upon all these topics.

THE DOINGS OF CONGRESS

With a synopsis of all important documents, valuable speeches, and the proceedings of the several State Legislatures

FOREIGN NEWS,

As given in the Letters of Special Correspondents, and in Extracts from the Newspaper Press of England and the Continent—and

THE MISCELLANEOUS NEWS

Of Accidents, Crimes, Disasters, Personal Movements, &c. both at home and abroad.

The *Weekly Times* will also contain EDITORIAL ARTICLES, discussing all the leading events of the day, in such a manner as shall promise to be most widely useful and instructive. In its political department the *Times* will be

WHOLLY INDEPENDENT OF ALL POLITICAL PARTIES;

Speaking freely and boldly its own Opinions—condemning Public men and Public bodies for whatever may be wrong, and upholding and sustaining them in whatever may tend to the advancement of the public good. It will advocate equal and exact justice to all men, the preservation of the Union upon the principles of the Constitution, and the improvement of the condition of all classes by Education, Morality and Religion. It will wage no war upon any section, nor countenance any infringement of the constitutional rights of any portion of our common country. But it will also resist all attempts to subordinate the general good to sectional ambition, or to undermine those great principles of human liberty which form the basis and foundation of our Republican Institutions. It will be moderate but firm in its tone; seeking to convince rather than intimidate, respectful towards those who differ from it, conservative in its tendency, and devoted zealously and steadily to the elevation and enjoyment of the people.

The *Weekly Times* will be printed upon handsome paper, in clear type and in elegant style—each number containing eight pages or forty-eight columns, presenting every week a larger amount of choice Reading and News than can be obtained elsewhere at the same rate. It is designed to make it at once

The best and Cheapest Family Newspaper in the United States.

It will be sent to Subscribers by mail at the following rates:—

One Copy one Year, for	$2,00
Five copies one Year, for	8,00
Twenty-five copies one Year, for	20,00

Each package must in every case be sent to *one name and address*. Any Postmaster, Clerk, or other person, who may send a Club or more subscribers on the above terms, and who will receive the package for distribution among the subscribers, shall receive an *extra copy*. Additions may at any time be made to Clubs by the party in whose name the Club stands, and on terms of first remittance.

Postage on the *Weekly Times* is

To Canada, payable in advance,.....25 cts. a year.
Within the State,.....13 cts. a year.
Within the United States,.....26 cts. a year.

The *NEW YORK DAILY TIMES* is a very large, first-class Daily Paper, containing all the News of the Day, &c. &c., which is sent to Subscribers by mail at SIX DOLLARS PER ANNUM.

The *NEW YORK SEMI-WEEKLY TIMES*, published twice a week, and containing all the reading matter of the Daily, is sent to Subscribers at the rate of THREE DOLLARS per annum. Two copies to one address for FIVE DOLLARS.

Payment in all cases is required invariably in advance; and no papers will ever be sent until the receipt of the money.

All letters inclosing money, or on business of any kind with the Office, is to be addressed to the Publishers,

RAYMOND, WESLEY & CO.,

A POST-PRANDIAL POEM.

BY JOHN G. SAXE.

Dear Brethren, who sit round this bountiful board,
With excellent viands so lavishly stored,
That, in newspaper phrase, 'twould undoubtedly "groan,"
If groaning were but a convivial tone,
Which it isn't—and therefore by sympathy led,
The table, no doubt, is rejoicing instead.
Dear Brethren, I rise—and it won't be surprising,
If you find me, like bread, all the better for rising—.
I rise to express my exceeding delight
In our cordial reunion this glorious night,
And invoke every blessing a true-hearted brother
In fullness of feeling could wish for another!
And here let me pause for a moment, to say
In a negative—then in a positive way,
(Like a person beginning his doctrinal task,)
What blessings for each I would specially ask:—
May you ne'er get in love, or in debt, with a doubt
As to whether or no you will ever get out;
May you ne'er have a mistress who plays the coquette,
Or a neighbor who blows on a cracked clarionet;
May you learn the first use of a lock on your door,
And ne'er, like Adonis, be killed by a *bore*;
Shun canting and canters with resolute force,
A "canter" is shocking except in a horse;
A jovial partner mind what you're at,
Beware of your head and take care of your hat,
Lest you find that a favorite son of your mother
Has an ache in the one and a brick in the other;
May you never, I pray, to worry your life,
Have a weak-minded friend, or a strong-minded wife;
A tailor distrustful or partner suspicious;
A dog that is rabid, or a nag that is vicious;
Above all—the chief blessing the gods can impart—
May you keep a clear and a generous heart.
Remember, 'tis blest to give and forgive;
Live chiefly to love, and love while you live,
And, dying, when life's little journey is done,
May your last, fondest sigh be, PAT CHATTON!

Oh, Never Let an Unkind Word.

Oh, never let an unkind word
Fall from those lips of thine,
For harshness severs but to divide
Love's golden chain divine;
And as the rose when once its plucked
We never can restore,
So the fond heart thus sadly crushed,
Will cling to us no more.

We often kill earth's fairest flowers
By some unkind neglect;
Then waste our time in useless tears
For what we might expect.
Oh, sweeter far to gaze upon
The faces of the dead,
Than on those dark and sombre souls,
From whom all love has fled.

The Blacksmith of Ragenbach.

A FOUNTAIN INCIDENT.

In the principality of Hohenlohe, now a part of the kingdom of Wirtemberg, is a village called Ragenbach, where about twenty years ago, the following event took place:

One afternoon in the early autumn, in the tavern-room of Ragenbach, several men and women having assembled from the village, sat at their ease. The smith formed one of the merry company—a strong, vigorous man, with resolute countenance and daring mien, but also with such a good natured smile on his lips that every one who saw him admired him. His arms were like bars of iron and his fists like forge hammers, so that few could equal him in strength of body.

The smith sat near the door chatting with one of his neighbors, when all at once the door opened, and a dog came staggering into the room, a great powerful beast, with a ferocious, frightful aspect; his head was hanging down and his eyes bloodshot, his lead colored tongue hanging half way out of his mouth, and his tail dropped between his legs. Thus the ferocious beast entered the room, out of which there was no escape but by one door. Scarcely had the smith's neighbor, who was bath keeper of the place, seen the animal, when he became deadly pale, sprang up and exclaimed, with a horrified voice—

"Good heavens! the dog is mad!"

Then rose an outcry. The room was full of men and women, and the foaming beast stood before the only entrance; no one could leave without passing him. He snapped savagely right and left; no one could pass him without being bitten. This increased the horrible confusion. All sprang up and shrank from the dog with agonizing countenances. Who should deliver them from him? The smith also stood among them, and as he saw the anguish of the people it flashed across his mind how many of his happy and contented neighbors would be made miserable by a mad dog, and he formed a resolution, the like of which is scarcely to be found in the history of the human race for high-mindedness and nobleness. Certainly his brown cheek paled a little, but his eyes sparkled, and an elevated resolution shone from the smooth brow of the simple-minded man.

"Back all!" thundered he with his deep strong voice. "Let no one stir, for none can vanquish the beast but I!" One victim must fall in order to save all, and I will be that victim; I will hold the brute, and what I do so, make your escape." The smith had scarcely spoken these words, when the dog started toward the shrieking people. But he went not far. "With God's help!" cried the smith, and he rushed upon the foaming beast, seized him with an iron grasp and dashed him to the floor. A terrible struggle followed. The dog bit furiously upon every side in a frightful manner. His long teeth tore the arms and thighs of the heroic smith, but he would not let him loose. Regardless alike of the excessive pain, and the horrible death which must ensue, he held down with an iron grasp, the snapping, howling brute till all had escaped!—till all were rescued and in safety. He then flung the half strangled beast from him against the wall, and dripping with blood and venomous foam, he left the room, locking the door after him. Some persons then shot the dog through the windows.

Weeping and lamenting, the people surrounded him, who had saved their lives at the expense of his own. "Be quiet, do not weep for me," he said, "one must die in order to save the others. Do not think me—I have only performed my duty." When I am dead think of me with love, and now pray for me, that God will not let me suffer long or too much. I will take care that no further mischief shall occur through me, for I must certainly become mad." He went straight to his workshop and selected a strong chain, the heaviest and firmest from his whole stock. He then with his own hands, welded it upon his own limbs, and, around, the anvil firmly.—"There," said he, "it's done," after having silently and solemnly completed the work. "Now you are secured, and I am inoffensive. So long as I live bring me my food." The rest I leave to God; into His hands I commend my spirit." Nothing could save the brave smith, neither tears, lamentations nor prayers. Madness seized him, and after nine days he died. He died, but his memory will live from gener-

ation to generation, and will be venerated to the end of time. Search history through, and you will find no action more glorious and sublime than the deed of this simple-minded man, the smith of Regenbach.

For each week's continuance,	[illegible]

Bank Commissioners' Report.

We are indebted to the polite attention of the Bank Commissioners (Messrs. M. L. Appleton and Joseph David, Jr.,) for an early copy of their Report for the last year—which also displays evidence of much vigilance, research, and labor in the examinations, devolving upon them.

The report is probably more full and comprehensive, and drawn up with greater labor, than any similar report heretofore made in New England, or perhaps in the country.

The statistics given of the condition of the banks show the circulation, deposits, loan and specie, and funds in Boston, of each bank, at three different periods, viz. Oct. 6, 1855, April 5, 1856, and Oct. 4, 1856—with the average calculated from the first weekly exhibit for 3 months ending in Oct. last. Also a full statement of the Liabilities and Resources of each bank, at the time of its latest examination previous to the report.

They also give various other items of information relative to each bank, including the liabilities of the President, Directors, and Stockholders,—the condition of the loan,—the dividends, &c. &c.

There follows a full and detailed statement of the amount of *over-issues* of the several banks at different periods. From this statement, we find that this growing evil has existed in the case of nearly half the banks of the State, to a greater or less extent, and certainly demands some effective system which shall render any important overissue difficult if not impossible. The suggestion in Gov. Hamlin's Address is worthy of consideration by the Legislature.

By the following extracts from the Report upon this point it will be seen that the Commissioners coincide with the Governor in relation to the issuing of bills by the banks by some State officer or department.

The overissues we have reported should in many cases be regarded with allowance, as the officers of the banks almost universally act upon the principle that their redemption in Boston is equivalent to having the bills so redeemed in their own vaults. Whether this is a reasonable construction of the law, or ought to be deemed sound policy, may be worthy of attention. But this liberal interpretation cannot be sufficient to justify others, where faults in this particular are quite apparent.

In the matter of the bill plates, the number printed, signed, and issued, the people have a direct interest, as well as the banks, and we know of no better guardian than the State or one of its departments, to be the custody of the several plates, and that suitable legislation should regulate the issue of every bill. The great portion of our Banks are responsible for the integrity of all the agents and employees of the several engraving companies, and while we have no reason to distrust their honest intentions, we cannot overlook the fact that they have sometimes answered orders for blank bills without proper discrimination as to their necessity. It will be recollected that in the case of the Grocers' Bank, Boston, five hundred thousand dollars of bills in blank were received after the bank had been enjoined, and it will be seen that the Ship Builders' Bank ordered three hundred and fifty-six thousand dollars. If a bank finds itself in trouble, or if its officers are disposed to do wrong it has the power, or may be tempted to pledge its own bills, or put them out in the community, in order to raise funds to meet its circulation. We well conducted bank would be guilty of this, of course, but every bank should be deprived of the temptation as far as possible. The package of unsigned bills should be abstracted from the vault, skillful penmanship would soon make them current until the information of the fact was known.

There ought, then, in our opinion, to be a limit to the number of bills which a bank should have under its control, and if all the bills of each bank should hereafter be registered, countersigned, and delivered at the office of the State Treasury Department by some officer of state, we fully believe that it would afford the best protection which can be devised, and to a great degree remedy the evils to which we have alluded. Let the bills be issued only on the certificate of Bank Commissioners, that they are actually required for the business of the bank.

The Commissioners give a favorable opinion in regard to the Suffolk system, and regard the new project of a bank of "Mutual Redemption" at Boston as at best experimental, and as originating with those banks "opposed to the rules and regulations adopted by the Suffolk Bank," and which the Commissioners conceive to be generally wholesome, and conducive to the safety of all the country banks.—All but four of the Maine banks "new existing under their charter," redeemed at the Suffolk when the report was made. The exceptions were, the Androscoggin, Lewiston, Maritime, Canton and Exchange.

The Commissioners believe there are now too many banks in Maine; but that the system, with a few modifications would be safer than any other established in New England.

A full report of the condition of the several Savings Institutions in the State (now numbering eleven) follows the other banking statistics. Of these eleven Savings Banks the Commissioners say—"all these provident institutions appear to be conducted with prudence and good faith. The number of depositors in the several banks is four thousand nine hundred and forty-seven, and the amount held by trust and due them in the aggregate, is $919,671,85, or about one ninth of the whole capital of the other banks. The average of the amount this due would give to each depositor $186,88."

About twenty pages of the Report are devoted to explanations of the condition of the Canton, Hallowell, Exchange, and Shipbuilders' Banks.

A full history of the transactions of the *Shipbuilders' Bank* is given. It seems that this concern, upon starting, ordered the New England Bank Note Company, to strike off bills from its plates to the amount of $363,000 (on a capital of $100,000.) The amount really furnished to the bank was $206,696 and of this amount $106,941 was unaccounted for upon the ledger of the bank. The amount which appears to be still outstanding is $61,613.—The Commissioners say that a very small dividend may possibly be realized from the effects of the bank. The notes and drafts in the Receivers' hands amount to $76,150; this embraces four notes signed by Jane R. Pitts, wife of Richard Pitts, amounting to $30,700, two notes of Means & Clark for $5,880, and a lot of notes and drafts which had been condemned as worthless by the Merchants' Bank of Boston, amounting to $35,250. There is some valuable property in the hands of the Receivers, but so encumbered and embarrassed that nothing can at present be realized from it.—The Commissioners say that "the manner in which some of the officers of that bank discharged their trust will come under judicial investigation on an indictment by the grand jury of Lincoln."

The applications to the Court, and the specifications in the cases of the *Canton, Exchange* and *Hallowell Banks* are given; but the recent proceedings in the Exchange Bank case, are not alluded to—having taken place since the report was made.

There are sixteen specifications against the *Bank of Hallowell*. The first is—"that the bank in fact commenced operations before any of its capital had been paid in in the manner required by law." This reason for an injunction ought to be sufficient, without reference to the other fifteen. Another specification is "that large amounts of its bills are put out to individuals residing out of the State, without the bank having proper security therefor." Loans and discounts have also been made at other places than its banking-house—its directors have not exercised proper supervision of the records—the Cashier's bond has not been renewed as required by law—the Cashier has not made up weekly balances as it was his duty to do—the exhibits when made up, did not show the actual condition of the bank, &c. &c.

There are nine specifications against the *Exchange Bank*, resting in substance, among other things, "that the paper has been discounted in a manner unauthorized by law—that the officers, or some of them, have permitted bills to pass into the control of individuals without the same having been regularly discounted by the directors—that large loans have been negotiated to parties out of the State without such security as is indicate proper management—that the corporation has discounted for one person or firm, or for his or their benefit, paper exceeding the whole capital of the corporation, without being endorsed by persons within the State, and of whose responsibility the Directors were not positively advised"—that it has received payment of its bills, to the amount exceeding $12,000,—that its books have not shown the actual position of its affairs—that its bills have been put in circulation on a less sum authorized by law, &c. &c.

Against the *Canton Bank*, there are eight specifications,—the gist material of which consists in that large amounts of its bills have been issued and delivered to persons out of the State, ($200,000 or more) and not included in its statements of circulation, and that its loan was illegally increased, and to persons out of the State,—but its whole capital stock has not been paid in—and that its books and records have not been legally kept, nor with safety to the stockholders or the public.

The aggregate statement of the condition of the bank is as follows:

LIABILITIES.

Capital stock	$8,107,384
Circulation	14,954,880
Deposits	2,218,626
Profits	523,098
Dividends unpaid	49,366
Due to banks	102,550
Bills payable	32,774
	$16,010,609

RESOURCES.

Loans	$13,430,674
Specie	569,068
Due from banks	191,858
Bills and checks	340,904
Bank charges	20,084
Real estate	102,816
Stocks	28,573
	$15,010,609

Amount of paper discounted the past year	$41,293,617
Amount of suspended paper Oct. 1855, Specie $741,127 Circ'n $3,029,859	773,334
Oct. 1856, Specie $657,167 Circ'n 4,994,228	

And the Commissioners say—

"The large amount of suspended paper does not prove that great loss will be sustained thereby, as with many it has been permitted to remain by understanding of the parties on account of the security being so ample; with others the paper is secured in who or in part, but not immediately collectible, while other portions may be considered doubtful or worthless. In reference to all this we generally retained the opinion of the officers as to its value.

And we copy a few of the general remarks of the Commissioners as follows:

"Nearly all the banks existing under the present law, so far as we can judge, will petition the legislature for a renewal of their respective charters, and in all probability there will be applications for new sets of incorporation. The number now in operation in the State is seventy-seven, and adding eleven Savings Institutions, there is a total of bank and corporations of eighty-eight. About one-fourth part of which, have a capital of paid $40,000 to $50 have a capital less than $100,000—and 38 a capital of $100,000 and upward.—The Canal, and Casco banks, of Portland, have the largest capitals, each being $600,000.

"The opinion is very prevalent among those well able to form sound conclusions, that it would be far better for the business interests of the community if the number of banks with small capitals were reduced. In other words, those who require discounts, as well as those interested in banking, complain, not that there is too great an amount of capital, but there are now too many banks of small capital, and whose circulation is limited. If our citizens can receive greater banking facilities by such reduction, and the consolidation of the capital into other banks, it would, most assuredly, be the part of wisdom to that degree.

"Every bank which is obliged, in order to maintain a fair circulation, to resort to undue means, by way of exchanging its own for other bills, incites a serious injury to good general credit, and if it cannot supply sufficient circulation and satisfying by well so doubted whether its continued existance is having a salutary effect on either the currency or the community. Banks of this character are eventually but an apt to seek a wider field throughout the country, or else are divid ale residing beyond the jurisdiction of our State, and of whose responsibility they cannot be so fairly assured, the control of a majority of their stock, and that upon conditions wholly unauthorized by their charters.

After stating the fact that if the banks of Maine averaged as large a capital as those of Massachusetts, we should have an aggregate banking capital of $26,064,000,—the Commissioners say,

"We do not intend to convey the idea that the banking capital of Maine should, by any means, be equal to that of Massachusetts, but to illustrate the fact that the capital of that State is concentrated in fewer banks, in proportion to their number, than that of our own State. It will be sufficient for our purpose to instance, the position of our two largest cities Portland and Bangor. The former has but six, while the latter has thirteen banks, and yet the capital of Portland exceeds that of Bangor in the sum of $625,000, being considerably more than one third of the capital of all the banks of Bangor. A partial investigation will satisfy any inquiring mind that the public is better accommodated in the one city with its few banks, than in the other with its many. And we may remark here, that the proportion of loans and discounts throughout the State, in the larger banks, comprises far greater amounts of small notes, than those whose capital is $50,000. It will generally be found that from one-fourth to one-half of the loans of the latter is in the hands of a few individuals; and in some instances which came under our observation, we noticed that about three-fourths had been made to two or three persons only.

"After mature reflection, we are led to believe that no banks should be hereafter incorporated with a capital less than $100,000, and in reference to the decrease of the number of existing banks, if it can be safely and judiciously accomplished, we are satisfied that such reduction, instead of being detrimental to the State, would greatly tend to increase its actual banking capital."

Our limits prevent any further reference to the report to-day. We may give some additional extracts hereafter, in relation to matters of public interest.

THE DEATH OF PRESTON S. BROOKS. We have no desire to disturb the ashes of the dead, by reflections at his expense upon the great and alarming neglect of infamy which has made Preston S. Brooks a marked and notorious man since the day of the bloody scene in the Senate Chamber. The responsibility and the infamy of that act now rests to the men of that section and that party which upheld and applauded the deed. But we must say that the eulogies just pronounced upon Mr. Brooks in the halls of Congress—in that very Senate Chamber whose floor was stained by Lane with Sumner's blood—appear to us not only improper, but insulting to the State whose sovereignty he attacked, and to the great free North which has so indignantly repudiated the cowardly deed. To our mind Mr. Brooks was not a man to have been elected to Congress. We would not have had a word said in his condemnation. We would have said—"He is gone—let his deeds, both good and bad, be judged by a merciful God."

Our readers have seen the telegraphic reports of the eulogies pronounced in Congress upon Mr. Brooks—and we think they will coincide in our opinion.

In relation to Mr Brooks's death, we copy the remarks made by the *Boston Journal*, as expressing our own feelings, both publicly and well.

"If Preston S. Brooks had not gained no other notoriety, the manner of his death would have been remarkable all over the country. Although by no means unprecedented, the death of a person of mature age from fright is very unusual. It has been said that Washington died of the same disease, but this is uncertain. His death was caused by quinsy. Croup is a more vivid and at first sight a more plausible form of a false membrane in the air passages to the lungs, which completely obstructs respiration. The worst enemy of a man would compassionate his sufferings from such disease. He see a man in the full vigor of his physical powers, not reduced by disease and in the fullness of his manly strength, struggling for the very air with a madness as intense as a terrible sight. It realizes the most vivid conception of a strong man in agony."

We shall indulge in no homily under such extraordinary circumstances, as one who has gained so wide-spread a notoriety. The lesson will not be lost upon the public mind, and it is a good rule and a safe one to speak no evil of the dead." With many good qualities and generous impulses, Mr. Brooks has left a reputation which few would envy.

The Rockland Democrat says that on Friday evening, 23d inst., about 8 o'clock, Capt. Spinney, a resident of Hillsboro, but recently on a visit to this, his native State, set out from Freedom village to walk to his old home, about four miles distant, and was found Saturday morning within about two rods and a half of the door, upon his hands and knees, with his head in the snow, frozen to death. He was a man of temperate habits, and by following his tracks no trace could be discovered that his strength failed till within a short distance of the place where he was found.

THE RAFT FROM THE CLYDE—LYONNAIS. Capt. Sparrow of the bark Cambridge arrived at Boston, reports that Capt. Spalding of the schooner Commerce, at Pernambuco, had spoken barque Essex, Ray, from Boston for Rio Janeiro, 25 days out, lat. 26 north, lon. 34 west. Captain Ray when 3 days from Boston had taken from a raft two seamen belonging to the French steamer, Le Lyonnais. The seamen picked up reported the steamer as having been run into and sunk by a vessel, when three days from New York; sixty were drowned, the rest took to the boats; there were other vessels in sight; the boats were probably picked up."

The mysterious disappearance of a young man named Fo Forest, in New York, we announced a few days ago. Since that time a Mr. Curtis, doing business at 67 Maiden Lane, in that city, a relative of De Forest, has received a letter, postmarked Brooklyn, with only an Asterisk as a signature, alleging that the young man was knocked down and robbed in Brooklyn, and his body thrown into the East River, where it would probably be recovered on the subsiding of the tide.

The lumber trade of Chicago the last season, is reported to have reached 500,000,000 feet.

The lumber passing through the New York Canals to the Hudson river, last year amounted to 388,000,000 feet—that is of boards and scantling.

The population of Nebraska Territory was reported at over 10,000 before the commencement of winter.

FIRE. On Saturday morning, 24th inst., the house of Isaac T. Ingersham in West Thomaston was consumed by fire. We understand the house was valued at about $800. Insured in the Hope for Mfg. Salem, for $400.

Legislative.

WEDNESDAY, Jan. 28.

SENATE. Petition of William M. Rodgers and als., for an act additional for the establishment of Sagadahock Ferry; also petition of City Bank, Lath, for renewal of charter; also petition C. S. Owen and als., for a new bank in Bath in place of the Commercial Bank; of Citizens Bank, Waterville, for renewal of charter; also of American Bank, Hallowell, for same object.

Mr. Woodbury offered the following:

Ordered, That the Committee on the Judiciary be directed to inquire into the expediency of so amending the laws in relation to plantations as to require the levying of State and county taxes upon said plantations, and the raising of money, by said plantations for the repair of highways, the support of schools, the support of the poor, and other purposes for which towns are now required to raise money, where the inhabitants exceed seventy-five.

Mr Woodbury said

In the entire State there are 165 plantations some of which contain more than 1000 inhabitants; many of these inhabitants are desirous of being incorporated into town but from certain influences are prevented from obtaining acts of incorporation from the Legislature.—Some of these plantations have been before the Legislature for acts of incorporation, and have been defeated by land owners within their respective limits, who (with some honorable exceptions) have ever opposed their incorporation, and will continue successfully so to do, so long as it is left to the discretion of the County Commissioners to apportion State and County taxes to said plantations. Therefore, the necessity of passing some uniform law requiring plantations to raise money for the purposes indicated in the order.

The order then passed.

On motion of Mr. Hersey,

Ordered, That the Committee on Military Affairs be requested to visit the Arsenal at Portland, and examine the property there deposited, and report if any appropriation is necessary to put the arms and equipments in a suitable condition for re-issue to troops; and also if any further appropriation for fencing, or repairs of buildings are necessary; and report the full amount of all appropriations that should be made. Adjourned.

House. On motion of Mr. Dickey, of Fort Kent,

Ordered, That the Committee on State Lands and State Roads be directed to inquire into the expediency of repealing the resolve, authorizing the Calais Academy or their assignees, to locate their grant of land in Township No 18, Range 3.

Mr. Duren of Calais, introduced "Resolves authorizing Land Agent to sell lands in the town of Carroll."

Mr. Hommett of Howland, introduced a resolve, authorizing the Land Agent to sell State land in the towns of Burlington, Lowell and Passadumkeag.

Referred to Committee on State Lands and State Roads.

Petitions, referred—Of Freeman's Bank for renewal of charter and increase of capital stock; of the Judge of Probate of Waldo County for increase of salary; of William Stevens and others for an act of incorporation to build a bridge across the Kennebec, between Embden and Solon.

Splinters.

A lad picking a bunch of $800 in bills across Wall street, New York, Monday, fell on the ice, and the wind gave an extensive circulation to the valuable paper; in fact only $30 of it was secured.

A farmer in California states that he has ploughed seventy-five acres this year with a yoke of cows. He says they are faster walkers than oxen—that they give milk, and save the expense of keeping another team.

A firm in New York, last week, sold a single diamond, to be worn a ring, for $6500.

Bennett is dangerously ill in London of pleurisy.

A friend at Gardiner, Maine, writes:—"Isn't this a great snow? Between here and Augusta the snow had to be quarried out, and we pass through cuts far above our heads. It is higher than was ever known here. I spent two hours in going a mile, Tuesday, and, for the first time in my life, turned back ingloriously, and gave up dead beat. So much for Buchanan's election."—*Lewiston Journal.*

The Nebraska News boasts of the big crops in that territory. "At Omaha city, wood is five dollars per cord, eggs one dollar per dozen potatoes two dollars and a half per bushel, and flour seven dollars per hundred weight."

The Lyons, N. Y. Republican says, a lad in that village, wished to ascertain how tight his wet tongue would stick to an axe that had been lying in the wood shed all night. The experiment was successful, and the illustration of the tenacity of a frosty axe to a wet tongue for more forcible than pleasing. The little fellow's cries (or attempts to cry) brought his father to his assistance, and the boy, with the axe sticking fast to his unruly member, was carried into the house; and it was some time before they could be made to part company.

Among the high privileges of adult male citizens in this country, is that of having and being sued; but the right of suing, considering the "uncertainty of the law," is worth very little; while the right of being sued is still more unprofitable. We would waive our's for a shilling.—*Post.*

USE OF SALT IN COOKING VEGETABLES.—A German professor says, that if one portion of vegetables be boiled in pure distilled or rain water, and another in water to which a little salt is added, the only difference is perceptible in the tenderness of the two. Vegetables boiled in pure water are vastly inferior in flavor.—This inferiority may go so far in the case of onions that they are almost entirely destitute of either taste or odor, though when cooked in salt water, in addition to the pleasant taste is a peculiar sweetness and a strong aroma.—They also contain more soluble matter than when cooked in pure water. Water which contains one 1420th of its weight of salt is better for cooking vegetables than pure water, because the salt hinders the solution and evaporation of the soluble and flavoring principles of the vegetables.

HOW TO GET RID OF SPANISH COIN.—We heard of a merchant living up town, who paid one of his servant girls on Saturday last, three dollars in *Spanish shilling pieces*, which he had brought up from his store for that purpose.—By this shrewd manœuvre he saved—and she lost—sixty cents. Of course he lives in a stone front and is rich; such a man could not remain poor.—*New York Daily Times, Jan. 27th.*

Of course this man fellow moves in the "best" New York society as a "gentleman of the first respectability," because he lives in a stone front-house and is rich. Is it wonderful that "garroting" and all kinds of highway robbery are so common in a city where such detestable rascals thrive and are respectable?—*Boston Post.*

GOOD COURSE. The New Bedford Standard says:

"Five women, candidates for admission to the Baptist Church in Bristol, R. I., were baptized in that place on Sunday, at half-past 3 o'clock, in the afternoon. The thermometer stood at the time, at seven degrees below zero, and the snow was 12 inches in depth. A boy stood by the out that had been made in the ice for the baptismal font, clearing it of the floating masses of snow and ice."

GENERAL HOUSTON'S PERSECUTION.—To a old Hotel in this city during the past week, has been Gen. Sam Houston of Texas. Gen. Houston is, as all his acquaintances know, fond of niff and fuss, and, in short is what Dogberry would call a P. B.—perfect brick. The General, however, entertains an intense hatred for that species of human bugs called "bores." One of these gentry, a good natured but soft-headed chap, a regular button-holder, cornered him the other day at his hotel. He had managed to be introduced to him by a gentleman the day previous.

"General," said the bore, after he had bothered Mr. Houston out of all patience, "I wish you would do me one more favor." A man of your experience is so competent"—

"Well, what is it?" inquired Mr. Houston, rather coldly.

"Well, you see, Mr. Houston, you are such an eminent man, such a"—

"Never mind that; what do you want to know?"

"Excuse me, but a person of your abilities and distinction must be a hero"—

"I am somewhat in haste" interrupted the badgered Senator—"pray come to the point at once."

"Well then, tell me the secret of your life—how you rose in position as you have done."

"Ah! but that wouldn't benefit you any. I can tell you how you can rise in the world if you will."

"That's just it," was the reply—"just what I was trying to get at."

"Well, sir, I'll tell you. *Undertake to provide a sore headed bull with a red scarf on your nose.* I'll guarantee your upward progress immediately on the completion of the experiment!"

The button holder collapsed, shoved his hat on his head, and walked sorrowfully away, while a cluster of gentlemen near by, who had overheard the conversation, fairly screamed with laughter.—*New York Paper.*

SUSPENDING IN RAILROAD CARS.—Railroad companies will be obliged to get up a new description of "winter cars" if such weather as we have had of late should become common. We have read some heart rending descriptions in our exchanges of days and nights spent in a railroad car blocked in a snowdrift, and a long distance from human habitations. In the winter season if a car was fitted up with good beds, and a tender accompanying the passenger car, filled with wood, coal, and a bountiful supply of provisions, such as chickens, turkeys, geese, and plenty of drinkables, there would be afforded an additional guarantee that the passengers would not be frozen or starved to death.

EXTRAORDINARY PERFORMANCE OF A SAILING SHIP.—The celebrated clipper ship Dreadnought was launched 1,165 days ago, during which time she has made twenty-one passages across the Atlantic ocean, traversing 65,100 miles, carrying about 37,500 tons of merchandise. On two several occasions she brought later news from the United States than the regular steamers, and we published third editions of our paper on each occasion,—the first with four, and the latter three days later news. A splendid portrait is to be seen in the Exchange News rooms.—*Liverpool Post Jan 9.*

The Dreadnought was built in Newburyport and is owned in New York.

DETENTION OF SHIPPING. There is a large fleet of inward bound vessels at anchor in the roads detained there on account of the ice in the bay. Some of them have been below for several days and the fleet is constantly increasing by fresh arrivals from sea. There is a million of property in this fleet, and in case of a heavy northerly gale, there would be great danger of its wreck and loss of much valuable property. It is understood that underwriters will take such measures to detain and will ensure the safety of the shipping.—*Boston Journal.*

LOSSES ON THE LAKES.—D. L. Dobbin, the Secretary of the Lake Association of Underwriters, is preparing the usual detailed statement of the losses upon the lakes for the season. Though it is known to be left to the boiler that the losses upon the lakes for the season just closing amount to over *four million dollars*. In 1848 the losses were $402,830; in 1849 $341,253; in 1850 $344,440; in 1851 $756,617; in 1852 $391,016; in 1853, $854,—350; in 1854 $2,167,816; in 1855 $2,707,889.—*Det Free Press.*

FATAL ACCIDENT.—Mr. French of Eastbrook while hunting one day last week, was shot through the head with buck shot, killing him instantly. He was mistaken for a deer by Mr. Thomas Murch of Hancock, who was out in the woods hunting. How many such accidents must happen, before hunters will exercise more care, while pursuing their sports?—[Ellsworth American.

The Buffalo papers give the following particulars of the explosion of the boiler in COLIGAN & Co.'s foundry.—"At the moment of the explosion, Mr. WILLIAMS, the engineer, and his family were at breakfast, directly overhead. The house was blown to pieces. A young infant was killed by a falling stove; Mr WILLIAMS was injured, and his wife sustained a fracture of one arm. Three children escaped.

SPECIAL NOTICES.

$2 per square for three insertions—$1 a week for continuance.

Spiritualism.

A TRANCE SPEAKING Medium, of Philadelphia, will speak, under Spirit Control, in Quincy Hall, ... Sunday evening, at 7 o'clock. Admission free. Collection will be taken to defray expenses.

Jan 29.

Military and Civic Assembly

—AT—

Norombega, Monday, Feb. 2d.

THE CITY CADETS will give their 2d *Dancing Assembly* for the season, at Norombega Hall, on MONDAY EVENING, Feb. 2d.

Excellent Music has been engaged for the occasion.

The Military will attend in uniform.

Tickets—Admitting Gent and Ladies, $1,00
Single Ticket, 75

To be obtained at the Bookstores of Tho. Dwelley and Bangor House, and at the Door.

Dancing to commence at 8 o'clock.

DANCING.

I shall commence a GENTLEMAN'S CLASS for beginners, MONDAY evening, 26th inst., at 7 o'clock. Afterboon Children's class at 3 o'clock.

Jan21 4t J. G. WASSATT.

MARRIED,

In this city, Jan. 24th, by Rev. D. H. Allen, M. Charles H. Dunning to Miss Deborah H. Clark, both of Bangor.

DIED,

In this city, Jan. 30th, Mary Frances, daughter of D. P. and Molly Lander, aged 7 years.

(Funeral from residence, Exchange-st., Saturday, at 10 o'clock A. M.

JOB PRINTING.

We are now prepared to execute every description of BOOK AND JOB PRINTING, neatly and promptly. We have in our office, in addition to an excellent assortment of *Type*, to which we are constantly making additions, a

Gaskill's Power Press,
Adams' Best Job Press,
Ruggles' Rotary Card Press,
Large and small Hand Presses,
Paper Cutter, Card Cutter, &c

We can do work at Shortest Notice, and in as Good Style as it can be done at any Establishment in the State.

☞ Those of our friends in want of Bill Heads, Posters, Hand Bills, Business or Visiting Cards, Blanks of any kind, are invited to call at our office, Exchange Block, corner Exchange and State-sts.

WHEELER & LYNDE.

Quadrille Music.

The subscriber will furnish Music for the Dancing Public.

As many pieces furnished as required.

A. P. PHILBROOK,
Bangor, Jan. 10, 1857 No. 10 Main street. tf

To the Ladies.

Newly Invented Skirt Cord!

WE have received, direct from the agents, a new article of Covered Gutta Percha Skirt Cord, infinitely preferable to whalebone or any material heretofore used in skirts, retaining its elasticity, and never liable to break. It is covered with white cloth, protecting the most delicate fabric from injury, and is in every way the most perfect article ever made for skirts. We shall be pleased to forward samples to ladies who may favor us with their orders.

L. SCOTT & CO.'S

REPRINT OF THE

BRITISH PERIODICALS

AND THE

FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE OF THE LATTER PUBLICATION.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals:

1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURGH REVIEW (Whig)
3. THE NORTH BRITISH REVIEW (Free Church)
4. THE WESTMINSTER REVIEW (Liberal)
5. BLACKWOOD'S Edinburgh Magazine (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can possibly be obtained from any other source.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	For any one.	For any two.
For any one of the four Reviews	$3 00	
For any two of the four Reviews		6 00
For any three of the four Reviews		7.00
For all four of the Reviews		8.00
For Blackwood's Magazine	3 00	
For Blackwood and three Reviews		9 00
For Blackwood and the four Reviews		10.00

Payments to be made in all cases in advance.—Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent. from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus—Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.

In all the principal Cities and Towns, these works will be delivered *FREE OF POSTAGE*. When sent by mail, the POSTAGE to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Four-teen Cents a year for each of the Reviews.

N. B.—*The price in Great Britain of the five Periodicals above named is about $35 per annum.*

THE FARMER'S GUIDE

To Scientific and Practical Agriculture.

By HENRY STEPHENS, F. R. S., of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College. New Haven: 2 vols., Royal Octavo, 2000 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

FIVE DOLLARS FOR THE TWO VOLUMES!

When sent by mail (post paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post paid), $5.

☞ *This work is not the old "Book of the Farm."*

☞ Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

THE Parlor Sewing Machine

THIS new and beautiful Machine, designed for every variety of *Family Sewing* and Tailors' work, forms each stitch the action as exactly by hand. The superiority of this Machine over others is at once apparent from the fact that it makes *the lock stitch*, making with much ease precisely the "life-like" hand stitch in all the changes—Running, Hemming, Over-hand, Back, Half and Quarter Back, and Side Stitching, enabling a person to adapt the stitch to the work or fabric desired. Every part is perfectly simple and easily understood; no understanding to spoil and confuse by take care of, as in other Machines; no peculiar mode of threading the needles; no winding spools, but using a single thread, and the needles threading themselves, it at once becomes the lady's ready assistress at will, and of totally substitute for a dozen hands. With the tension screw, each different stitch is obtained in which a person, with the direction sent, soon becomes expert. No drawing, knotting, looping, chafing, tambouring, skipping, puffing or unravelling but real ladies' sewing. Every Machine is warranted perfect, and finished up in a variety of elegant styles, truly making an "ornament to a seamstress."

Manufactured only by HOWARD & DAVIS. Exhibition and Salesroom, No. 232 Washington-street, Boston. N. A. JOHNSON, Manufacturing Agent.

☞ These Machines are in operation and for sale at the Dorel House.

THEY having received 11 Gold Medals, 11 Silver Medals, 3 Bronze Medals, and the Prize Medal at the

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Jan. 30.

SENATE.—The consideration of Mr. Hough's resolution, touching discoveries from the Navy was resumed, and again postponed.

After the transaction of some unimportant business, the Senate adjourned.

HOUSE.—The consideration of the private calendar occupied the attention of the House during the whole session.

Adjourned.

From Washington.

WASHINGTON, Jan. 30.

Owing to the non-arrival of witnesses living far distant from Washington, the Corruption Investigating Committee will not be able to make their report as soon as they anticipated, probably not for 10 days.

The Senate went into Executive session to-day, by one majority, upon the nomination of Mr. Harrison as Judge of Kansas Territory, in place of Judge Decompte, and adjourned after three hours warm debate, without taking the question. It is thought Harrison cannot be confirmed, or that if he is the vote will be decidedly close.

The House Committee have resolved that James Watrous of Texas shall be impeached for high crimes and misdemeanors. This is the first impeachment of a Federal Judge for 40 years. The committee will report on the first opportunity.

The Storm at the South—Intense Cold—The Harbors Frozen over.

NEW YORK, Jan. 30th—

Richmond and Norfolk papers give details of disasters of recent storms.

At Norfolk it was commenced falling on Saturday evening and continued till Monday morning, storming nearly the whole time by a tremendous gale. Considerable damage was done in the city and the harbor was frozen over so firmly that people passed in crowds over to Portsmouth.

The cold was the most intense ever known in that region.

There had been no communication by the roads with Petersburg, but telegraphic dispatches state that 10 persons had been frozen to death in that neighborhood Saturday. Among them were Dr. Joseph E. Cox and his nephew, R. C. Taylor.

Effects of Tides which left Norfolk 17th for New York, went ashore the same night at Lynhaven Bush. The Capt. and cook were frozen to death.

Senatorial Nomination.

ALBANY, January 30.

The Republicans of the Legislature met in caucus this evening and unanimously nominated Preston King, for United States Senator to succeed Hamilton Fish.

Markets.

NEW YORK, Jan. 30.

Flour 5 cents lower on medium. Common to fair State 6.30 a 6.40; Upper Lake 6.50 a 6.75; common to good Ohio extra 6.70 a 6.90; fancy Genesee 7.10 a 8.50; Southern heavy, and good to good 7.00 a 7.20; fancy and extra 7.30 a 8.50; Canal as steady, superfine 6.30 a 6.50; extra 6.90 a 7.50.

Wheat steady. Genesee white 1.31.

Corn firmer. State 60 a 62; Western 63 a 64.

Corn is lower. Mixed 69 a 72; white and yellow nominal.

Pork quiet for mess. Mess 20; old prime 14 a 15; Western prime mess 19.50 a 19.75.

Beef buoyant. Country mess 10.75 a 13; prime 9.50 a 10; repacked, Chicago 16.25 a 16.50; prime mess nominal.

Cotter dull. Rio 9 a 10½; Java 31½.

Sugar firm. Muscovado 8 a 10½; Porto Rico 9½; Havana 9½.

Molasses steady. New Orleans 76 a 80; Muscovado 65; Muscovado 65; Cuba Clayed 62 a 65.

On Wednesday evening Mrs. Reinecker and her three children, living near Sellor's Point, Maryland, were found dead in their house.—A man who lives in the neighborhood, had for some time, frequently been in the habit of coming called at the house to get some work done, and found the door frozen, having evidently perished with the cold. Mr. Reinecker left home on Sunday morning last for his farm and has not since been seen or heard from.

On Tuesday last, some of the scholars who attend the school near Berry's Mills in West Boylston, discovered near far from the Mills a public man feet, protruding from a snow bank on the roadside. On digging away the snow a corpse was discovered, which was recognized as the body of Joseph Sandford, a resident of that town.

Nobody had seen Sandford since the storm commenced falling on the night of the 19th, and it is supposed he lost his life in the storm.

Nobody had seen Sandford since the storm commenced falling on the night of the 19th, and it is supposed he lost his life in the storm.

Nobody had seen Sandford since the storm commenced falling on the night of the 19th, and it is supposed he lost his life in the storm.

A LINGERING DEATH from Consumption, the dread scourge of America, may be averted by the timely use of M. M. N. Gardner's Indian Balsam of Liverwort and Hoarhound, the greatest blessing ever vouchsafed to mankind. A medicine unrivalled in the annals of the healing art, which has received the sanction of the first in numerous cases. This excellent Balsam is sold at Washington street, Boston. Weeks & Potter, Gen'l Agents.

J. S. Ingraham, agent for Bangor—H. H. Hay, Portland State Agent. 9m

CHOLERA.

A Certain Cure for this Disease may be found in the use of PERRY DAVIS'

VEGETABLE PAIN KILLER.

DUBUQUE, Iowa, May 5, 1856.

Gentlemen—I feel under obligations to you for the benefit I have received from your invaluable Pain Killer. We have had some cholera here on the Mississippi this season. A few days since I was called in to see a young man of our city, who was supposed to be attacked with the disease. The usual remedies were taken with severe vomiting, accompanied with cramps of the extremities. Warm covering and hot water were applied to restore warmth. My wife's family were supplied with Pain Killer with success during the cholera season in Buffalo in 1849, and we now use it in our family. I believe it to be a sure cure for cholera, if the proper dose be administered. I find it invaluable in my family practice. I have used it in cases of Dysentery, Diarrhœa, Cramp and Pain in the Stomach, Sick Headache, Colds, Coughs, Sore Throat, Rheumatism, Neuralgia, Burns, Scalds, Bruises, Sprains, Toothache, Earache, Chilblains, Frost Bites, Chapped Hands, Cracked Feet, Musquito Bites, Insect Stings, Chills and Fever, Fever and Ague, Fever Sores, Old Sores, Piles, Ringworm, Tetter, Salt Rheum, Scald Head, Sore Eyes, Sore Breast, Sore Nipples, Felon, Whitlow, Boils, Corns, Bunions

STEAMERS.

Winter Arrangements.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer WESTERNPORT, *Capt. P. S. Berry*, will run regularly between New York and Portland, as follows:

Leave Brown's Wharf, Portland, *every Wednesday afternoon*, at 4 o'clock; and returning, leave New York, Pier 12 N. R., *every Saturday afternoon*, at same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe, and comfortable route for travellers between New York and Maine.

Passage $4.50. No charge for State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport, and St. John, with despatch, at the cheapest rates.

For Freight or passage apply to H. B. CROMWELL, Pier 12 N. River, N. Y.; EMERY & FOX, Brown's Wharf, Portland.

Portland, Jan. 24, 1857. 6m

Summer Arrangement.

The Steamers ATLANTIC, Capt. Geo. Knight, and the FOX, EAST CITY, Capt. F. A. Prince, will run as follows:

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00

Freight forwarded daily over the A. & K. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS, Agent.

march14 tf

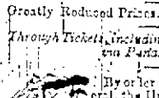
California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 60 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.



By order of the Postmaster General, the United States Mail Steamers will hereafter be dispatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 1,000 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails, and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets not to be obtained by any of the Company's Agents before these will be recognized by the Agent at Panama*, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. ALLERTON, Agent,

No. 138 Broad Street, Boston.

Bangor, Nov. 25, 1856. N. T. SWAN, Agent

American & Foreign Patents.

R. E. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington since the Act of 1837.)

No. 76 State Street, opposite Kilby St.

BOSTON.

HAVING an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Models of the claims of any Patent furnished by remitting Five Dollar. Assignments recorded in Washington.

This Agency is now the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials be our given proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that it has abundant reason to believe, and can prove that at any other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, on good question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent and the usual great delay thereby, are hereby saved from one.

To inventors.

☞ During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did assist me in the Patent Office in soliciting or procuring Patents. There were few, if any, persons acting in that capacity, who had so much to do in our office as Mr. Eddy, or in whom we have more confidence in his ability and success. I regard Mr. Eddy as one of the most informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more able to promote their application in a form most favorable for their early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

(From the present Commissioner.)

☞ August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business relative to the Patent Office. He is thoroughly versed in patent law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON, Commr. of Patents.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE,

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth, that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and crackes; but when this water-proof thing is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 20 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR—None are genuine unless the engraving of the Seal of the Patent Office of England, the Seals of the Rep. de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and round each case.

Sold by Dr. H. A. HARROW—*Member of the Imperial College of Vienna, and Royal College of Surgeons, London*; who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 9 o'clock in the morning till 12, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR, No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences resulting from early abuse, or excess. All physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which, unfortunately, too many have to long been thought an indelible stain upon the health of a great portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the Allopathic physician treats with mercury, (?) or inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR No. 1, 2 and 3 are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sent to any place in cases and divided in separate doses as administered* by Vauquelin, Lallemand, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, for the prompt delivery of the Triesemar, and the larger sizes, will be forwarded by Dr. Harrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus insuring to the public genuine European preparation, and effectually protecting them from spurious and pernicious imitations. The three distinct cases are as usual, but not free of carriage.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a cause of constant vexation and loss. The entire reliability of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fine and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than those sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes much be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "The Machine Gazette," a paper devoted entirely to the subject. It will be sent gratis.

550,000 Acres Selected Pine and Farming Land

IN MICHIGAN.

THE SAINT MARY'S FALLS SHIP CANAL COMPANY

OFFER for sale their Lands, which are principally situated in the lower Peninsula of Michigan, on and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large, and capable of floating logs at all seasons of the year, with harbors at their mouths, on the lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, providing already that most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great **Lumber Markets** of the country.

Tracts of from 40 to 40,000 acres

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West,

and will contain enough of the FINEST PINE TIMBER, to more than pay for the land, fencing, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, roots, and produce raised in the most favored part one of the West.

Companies of 10, 15 or 20 Persons,

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual location by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company in Detroit, Michigan.

Copies of Maps, field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

☞ Large Maps of the State, showing the lands of the Company, will be found at public places in most of the principal towns in the Eastern and North-western States.

GEO. S. FROST, Land Agent.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827.) Licentiate of the Hall (1826,) and 20 years Medical Reference, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS.

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. Culverwell, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred, in bringing this article before the public could not be risked, were its superiority over every means hitherto proposed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an overplus sale to many.

Dr. Culverwell's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded, for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Mss rs. oct16 TOWNSEND & MORRIS.

THE GREATEST MEDICAL DISCOVERY

Of the Age!

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both of under humor.) He has now, in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the neck.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and run ing ulcers.

One bottle will cure early eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I predict over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another, after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humor, but there is no introduction in a generally modern, great and wonderful virtues have been found in it that I never expected.

Several cases of epileptic fits, of the disease which was always considered incurable, have been cured by a few bottles. Or, what a mercy it will prove effectual in all cases of that awful malady—there are but few which are seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and much of it.

DIRECTIONS FOR USE.—Adults one tablespoonful per day—Children over ten years dessert spoonful—Children from two to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 16 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

PROFESSOR WOOD'S HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed in dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, if it by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge

SIX

MERRIMACK, Mass., Nov. 1, 1855.

PROF. O. J. WOOD—Dear Sir:—I take pleasure in giving voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as a pear, and I then continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my great astonishment, found, after a few applications, it stopped the falling, and became as glossy and beautiful in appearance, and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly,

HENRY GOODRICH.

CHARLESTOWN, Mass., Aug. 9, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to all as that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the bottle carefully through the month, and my hair is entirely changed to its original color, brown, and the new hair is over it reaches full length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the body, which before was dry, and it has caused to come out a luxuriantly.

Respectfully yours, &c.

MILES B. ASTODGARD.

From Mrs. Angelia, a well known nurse in Boston.

BOSTON, Oct. 19, 1855.

GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but leaving off the extraordinary effects of this article, I commenced to try it. My hair has been restored to its original thickness, and also to its former color, which is brown.

Yours respectfully,

MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:

BROOKFIELD, Mass., Jan. 29, 1855.

PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that it is effective, as I have seen exercised in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled in my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours truly,

J. K. BRAGG.

(From the Jersey City Telegraph.)

WHAT IS IT FOR.—Prof. Wood's Hair Restorative! Is a question asked daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all it promises to the human hair. *It will restore its growth—it will stop its falling—it will restore its natural color!* It is not a hair dye, but speedy and efficacious Hair Restorative.

AYER'S Cathartic Pills

(SUGAR COATED,)

ARE USED TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach,

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst heads by one body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PERRIN, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

DR.: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not yield to them.

Fraternally yours, ALANSON HALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relaxy and Worms.

POST OFFICE, Ashland, Lyc. Co., Miss., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done by my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her child and two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us sold from five to twenty dollars doctors' bills, and lost the children, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in charge. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Foreman of Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of fearful scrofula for her hands and feet that had proved incurable for years. Her mother has been long afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PLANTER HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for so great relief as Pills have brought me if I did not report my case to you. A deadened leg in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

Sphere Chapel, Baton Rouge, La., 8 Dec., 1855.

DR. AYER: I hasten to inform you of the cure of my Rheumatic Gout—a painful disease that I suffered long for years. VINCENT SLEDELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although valuable in skillful hands, is dangerous in amateur hands from the dreadful consequences that frequently follow its incautious use. These contain no atom of mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues, throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints are already known. Say, few are the families in any civilized country on this continent without some sad experience of its effects; and fewer yet the communities any where which have not among their sorrowing mourners, by its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for the infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have the strongest grounds to believe the Cherry Pectoral saves more lives by its timely curing colds, than those it cures. Keep it by you, and when your child will say and cough, for neglected until it is too late, will cost a doctor's bill, and perhaps, on the village, cost your life away. All know the dreadful fatality of lung disorders, and all may know to the virtues of this remedy, we need not be given to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.
